SUPERTRAMP RESTORED AT CUPS 'N STRINGS

Supertramp co-producer Russel Pope recently visited Cups N' Strings Studios in Santa Monica to supervise the restoration of some 24-track analog tapes recorded at the multiplatinum band's 1979 Paris concerts. The tapes were recently discovered in the Northern California barn of the band's drummer Bob Siebenberg. Pictured (L-R) L engineer Grant Johnson, Cups N' Strings owner Bruce Maddocks and producer Russel Pope.
